

INTERVIEW AND CONTACT INFORMATION

ELGIN L. HUSHBECK, JR.

BOOK: Preserving Democracy (preservingdemocracy.com)

RELEASE DATE: Now Available!

WHY THIS BOOK:

- Clear, engaging writing
- Logical and consistent presentation
- Strong, consistent, conservative ideology
- Timely – issues that are being debated now

ABOUT THE BOOK:

When the Founding Fathers formed the United States, they created, in Lincoln words, “the last best hope of earth.” Over the last hundred years we have vastly changed the country they gave us, and are continuing to make changes. But with the state of education in the country, how many really understand the dangers of democracy the Founding Father understood so well, dangers that caused them to create the system of checks and balances. When we make changes are we removing deadwood no longer needed, or removing key foundational supports? Preserving Democracy looks at a number of troubling trends that if not addressed could cause the American democratic experiment to fail, as all prior attempts at democracy have failed. (For more details see preservingdemocracy.com.)

ABOUT THE AUTHOR:

Elgin L. Hushbeck Jr. is an author, engineer, small business owner, educator, lecturer. He has a bachelor’s degree in Electrical Engineering and Masters’ degrees in Christian Apologetics and in Business Administration/Technology Management. Mr. Hushbeck has worked for several engineering and technology firms, including five years at NASA’s Jet Propulsion Laboratory in Pasadena, California, where he was part of the flight team for Voyager’s encounter with Neptune.

He is the author of three books, ***Evidence for the Bible*** and ***Christianity and Secularism*** along with study guides, and his forthcoming book ***Preserving Democracy***.

He is available for interviews and can be contacted via his publisher, Energion Publications, P. O. Box 841, Gonzalez, FL 32560, 850-525-3916, e-mail pubs@energion.com.

SUGGESTED INTERVIEW QUESTIONS/TOPICS:

1. Current budget and priorities
2. The actual impact of stimulus on the economy (Will the stimulus package shorten or lengthen the current recession?)
3. What is going to happen to the health care system in this country when it is reformed?
4. How much can we learn from history?
5. Why do voters often vote for things they oppose and against those they support?
6. Is voter fraud a serious issue and why?
